GAZETTEER of NOVA SCOTIA 1

Key map of Nova Scotia – inside back cover

FOREWORD

This edition of the Nova Scotia Gazetteer records more than twice the number of names contained in the preceding edition published in 1961. It lists the names of populated places, rivers, lakes, and other cultural and natural features approved by the Canadian Permanent Committee on Geographical Names.

The many additions and changes in this gazetteer resulted from a comprehensive three year field study of the names of the entire province.

The format of this gazetteer has been devised to serve the needs of English and French-speaking users. Names listed in the text are in the language forms rendered by the Committee.

We welcome any comments from users with regard to any additions or corrections.

H.B. Robertson,
Director of Surveys and Member,
Canadian Permanent Committee on
Geographical Names.

Halifax 1977

PREFACE

In 1897, the Geographic Board of Canada, later the Canadian Board on Geographic Names, was established by Order in Council and authorized to rule on all questions of geographical nomenclature affecting Canada. The Board was reorganized as the Canadian Permanent Committee on Geographical Names in 1961, and its present membership and functions are defined by Order in Council P.C. 1969-1458. The decisions of the Permanent Committee are guided by a set of principles of nomenclature which all members have agreed to accept.

Committee decisions are published in the Gazetteer of Canada Series, of which the present volume lists all decisions relating to Nova Scotia. This revision of the 1961 edition of the Gazetteer of Nova Scotia contains approximately 31,700 names of populated places and physical features, of which almost half are additions or changes to those in the previous edition.

The Committee welcomes reliable information concerning additions and corrections to geographical names which, when approved, are listed in the annual cumulative supplements.

The co-operation of the provincial and federal authorities has been essential to the accuracy and completeness of this work. The assistance of the Committee member for Nova Scotia, Mr. H.B. Robertson, Director of Surveys, is gratefully acknowledged. The contributions of personnel in the provincial Department of Lands and Forests, and the Department of Mines, especially Mr. J.T. Porteous and Miss E.E. Duncan, are also appreciated.

Jean-Paul Drolet,
Chairman,
Canadian Permanent Committee
on Geographical Names.

Ottawa 1977

EXPLANATORY NOTES

POPULATED PLACES

It has been the practice in recent volumes of this series to indicate a descriptive designation for each name of a populated place, using such terms as hamlet, dispersed rural community, post office and so on. Because such designations were often arbitrarily selected according to the characteristics of the places as depicted on large scale maps, and because of different concepts for populated places from province to province, it has been decided to retain designations for incorporated municipalities only.

In order to identify the names of populated places readily and to distinguish them from the names of other kinds of features, they have been capitalized throughout. In instances where a letter after the initial letter is normally capitalized, such as in LaHave and MacKinley, these are shown as LaHAVE and MacKINLEY. Otherwise, names such as Maccan are shown as MACCAN, that is with upper case lettering throughout.

LANGUAGE TREATMENT

The material in this gazetteer is presented in a manner designed to serve the needs of either English or French-speaking readers in a single volume.

Each name is recorded in the language form approved by the Canadian Permanent Committee on Geographical Names. This normally reflects majority local use.

A glossary of generic terms is included. The definitions in the glossary are given in both English and French, as are all other general notes, and explanatory items in the text.

In some instances, when the name does not contain a generic term, or the generic term used does not convey the nature of the specific feature represented, an explanatory descriptive term is given in brackets, both in English and French, e.g. Carrying Place, The (Isthmus-Isthme); Cow and Calf, The (Rocks-Roches); Shields Head (Island-Île).

POPULATED PLACES

All elements of a populated place name constitute a single proper name and are, therefore, alphabetized letter by letter. For example, GRAND DESERT precedes GRANDE ANSE, while GRANDIGUE follows the latter. For names with "St." and "STE.", the alphabetical arrangement proceeds as though such words were spelled out: For example, STE. ANNE DU RUISSEAU comes after ST. CROIX but before ST. ESPRIT.

PHYSICAL AND CULTURAL FEATURES

The names of most physical and cultural features consist of a specific, as for example, *Oulton* in Oulton Creek and *Grand Pré* in Grand Pré National Historic Park, and of a generic, as for example, *Lake* in Webber Lake and *National Park* in Cape Breton Highlands National Park.

The names of such features are listed letter by letter, so that *Petitpas Lake* comes before Petit Passage, but after Petit-de-Grat Island. Exceptions to this arrangement are:

a) when the generic precedes the specific, as in *Mount King*, the name is listed in the gazetteer as *King, Mount*.

b) When the name begins with the definite article, as in *The Moll*, it is listed as *Moll, The*. This also applies to names whose elements are wholly approved in French, such as *La Pointe*, but when the decision is composed of a specific of French origin, such as *La Planche* and an English generic, such as *River* the name is alphabetized exactly as approved.

c) When French particles occur in names, such as "à" and "de", they are placed with the generic, resulting in listings such as *Pic, Lac à* and *Bardeaux, Lac des*.

The position of an adjective in English names rarely indicates whether the adjective modifies the specific term or the generic. Thus the adjectives *Little* and *Big* in names such as *Little Pine Lake* and *Big Lots Hill* are, for purposes of alphabetical arrangement, considered to be an integral part of the proper name. However, with a French name the adjective is positioned so as to indicate whether it modifies the specific term or the generic term. In the name *Petit Lac Long* the adjective *Petit* modifies the generic term *Lac* and, therefore, the name is found under "*L*" as *Long, Petit Lac*. In the name *Crique des Grosses Coques* the adjective *Grosses* modifies *Coques* and thus the name is found under "*G*" as *Grosses Coques, Crique des*.

Identical names are listed in ascending order of latitude.

MAP AREA

The purpose of this column in the gazetteer is to assist the user when a map is required. The map reference is the 1:50,000 scale, being the largest National Topographic System scale available for complete map coverage of the province. By referring to the map inside the back cover of the gazetteer, the user can readily determine in what area of Nova Scotia a particular feature is located. Some features, which extend to more than one map area, are so indicated. Also, some of the better known and larger features, which are identified on the key map, are referenced in the text as "See Key Map – Voir Carte de Référence".

It should be noted that some of the names in this gazetteer may not be found on the referenced 1:50,000 map, dependent on the date of approval of the names and the date of issue of the maps.

Indexes of maps of various scales are available free of charge, from:

Canada Map Office,
Surveys and Mapping Branch,
Department of Energy, Mines & Resources,
615 Booth Street,
Ottawa, Canada
K1A 0E9

GENERAL LOCATION REFERENCES

Locations are referenced to geographic counties which are shown on the Key Map at the end of the gazetteer. Offshore features, such as rocks, banks, reefs, coves, bays, etc. which may not be within such territorial divisions are referenced, for convenience, to the adjacent county. The county is not given for some of the larger features shown on the Key Map.

Extensions of some municipal boundaries have resulted in the assimilation of incorporated and unincorporated communities. The names of such communities have been retained in recognition of continuing local use. Such names are referred to as being located in the municipality of which they are a part, rather than by geographic county. For example, McLEODS CROSSING is located by the notation "Within the town of – dans la ville de GLACE BAY". Natural features wholly within urban municipalities are also referenced in this way.

GEOGRAPHIC CO-ORDINATE REFERENCES

The geographic co-ordinates given indicate the centre of each feature, except for streams, where the position of the mouth is given. The geographic co-ordinates are to the nearest minute.

NAME CHANGE

Names which appear in the first edition of this gazetteer, and have been changed are cross-referenced to the approved name by the use of "See – Voir".

RESCISSIONS

An asterisk (*) beside a name denotes that the Committee has withdrawn a decision on the name. Such names are often those not in current use for places that have been abandoned. Occasionally they are names of features previously incorrectly identified. Some of these rescinded names still appear on maps and charts.

GLOSSARY OF GENERIC TERMS

The following generic terms are used in this gazetteer to designate cultural and natural features. They are defined in the context of local concepts. In some instances a synonym is given in brackets in the list when the local concept is quite different from more widely accepted usage in Canada.

Anchorage:	A protected area along a coast or shoreline suitable for anchoring vessels in safety.
Anse:	A small indentation along a coastline or shoreline; a cove.
Arm:	A long, narrow extension of a water body.
Bank:	A detached elevation of the sea bottom over which the depths do not normally constitute a danger to surface navigation.
Bar, Barre:	A long, narrow feature of sand, mud, gravel, or shingle near the mouth of a river, or at the approach to a harbour, forming an obstruction of navigation; a similar offshore feature close to and parallel with the shore.
Barachois:	A body of water enclosed by a sandbar with a very narrow entrance.
Barren, Barrens:	A tract of flattish land on which small trees and shrubs may grow.
Basin:	A water feature joining a larger water feature by a narrow mouth.
Batture:	A raised subsurface area of rock or shale that causes continual breaking of waves.
Bay:	An identation in a coastline or a shoreline.
Beach:	A gently sloping shore covered by sand, pebbles, or mud, that is washed by waves.
Bend:	A change in the direction of a watercourse or a shoreline.

Bight: A body of water in a long curving indentation of the coastline.

A small, shallow, fast flowing watercourse; rapids.

Bluff: A steep-sided hill or promontory.

Bog: A flat area of spongy ground, with low vegetation.

Bosse: A submerged area of unconsolidated material where the shallowness of water constitutes a danger to surface navigation.

Branch: A flowing water feature which is the tributary of a main stream.

Breaker: A raised subsurface area of rock or shale that causes continual breaking of waves.

Brook: A watercourse, ranging in size from a seasonal trickle to a river.

Canadian Forces Base: A designated area set aside for use by Canada's armed forces.

Canal:
(a) A natural or man-made freshwater channel used for navigation, irrigation, etc.,
(b) A narrow saltwater passage between bodies of land.

Cap: Variously, small coastal rocks, islands, shoals, or ledges, that are surrounded by water and have rounded tops.

Cap, Cape: A large promontory extending into the sea

Cascade: A steep series of small waterfalls.

Cave: A hollow space, cavity, or chamber in the earth.

Channel: A usually navigable, narrow, water body connecting larger water bodies.

Chuckle: A group of rocks at the mouth of a cove where the tidal currents meeting these obstacles become turbulently agitated.

Cliff: Land projecting nearly vertically from a body of water or from the surrounding land.

Comté, County: A territorial division with legally defined boundaries.

Côte: A narrow strip of land bordering on water.

Cove: A small bay or indentation along a coastline or shoreline.

Creek:
(a) A tidal inlet of coastal water, usually at the mouth of a brook or a river,
(b) Water flowing down a gradient with its mouth at or above sea level.

Crique: A tidal inlet of coastal water, usually at the mouth of a brook or a river.

Deadwater: An expansion of a watercourse where the water appears to be motionless.

Desert: A wooded area, with sandy soil.

Droke: A small brackish watercourse.

Dump: A small waterfall and the pool below it.

Dune: A small ridge of sand hills along the shore.

Dyke: A ditch constructed for the purpose of draining excess water from farmland.

Eddy: A small area of turbulent water where obstructions like rocks, islands, or land projections cause the water to run in a circular fashion contrary to the tide or current.

Elbow: A sharp change in the direction of a watercourse.

End: An extemity of an island.

Entrance: A navigable channel, usually into a harbour.

Estuary: The tidal area at the mouth of a watercourse.

Étang: A small landlocked body of water; a pond.

Falaise: Land projecting nearly vertically from a body of water or from the surrounding land; a cliff.

Falls: A descent of a stream of water down a declivity.

Field: A flattish area of grassland.

Flat, Flats:
(a) Level areas of land, usually composed of mud, extending from the shore and covered by seawater at high tide,
(b) Low-lying marsh that is inundated at high tide,
(c) A large area of flat, wet ground.

Flowage: An inundated area, usually caused by the damming of a watercourse

Flume: A narrow, fast-flowing section on a water-course.

Fork, Forks: A junction of two watercourses.

Funnel: A constricted place on a watercourse, characterized by fast water.

Game Sanctuary: A defined area, under provincial jurisdication, for the protection of wildlife.

Gap: A narrow saltwater passage between two bodies of land.

Glade: A wet, low-lying area with sparse vegetation.

Glen: A narrow valley in a mountainous area.

Goulet: A body of standing water, often a saltwater harbour, with a narrow entrance.

Ground, Grounds: An undersea feature, usually near or in a harbour, close to the surface and dangerous to navigation.

Gulch:
(a) A steep-sided depression in the landscape,
(b) A shallow saltwater channel.

Gulf: An indentation of the sea into the land, larger than a bay.

Gully:
(a) A water worn depression in the landscape,
(b) A small watercourse,
(c) A small cove into which a small watercourse enters.

Gut, Gutter:
(a) A body of water joined to the sea by a narrow entrance,
(b) A narrow channel between two bodies of land which obstructs the movement of a tide or current.

Guzzle:
(a) A very narrow, shallow saltwater channel between two bodies of land,
(b) A narrow, shallow section of a watercourse.

Harbour, Havre: A standing water area, usually protected by natural or artificial features, suitable for mooring or anchoring vessels.

Hay Marsh, Hay Meadow: A low-lying area suitable for cutting marsh hay for fodder.

Head: A high promontory with a steep face extending into a body of water.

Heath: A flat, wet area with low vegetation.

Highlands: Large areas of high, mountainous terrain.

Hill:
(a) A steep slope,
(b) An elevation of terrain, above the level of the surrounding land, smaller than a mountain.

Hole:
(a) A small body of landlocked water,
(b) A small deadwater,
(c) A small raised area of the sea bottom,
(d) A very narrow channel between islands,
(e) A very small cove along a coastline.

Hollow: A wide terrain depression, usually with a watercourse at its base.

Île, Isle: A body of land surrounded by water.

Indian Reserve: A legally defined area of land set apart for the use and benefit of a band of Indians.

Inlet:
(a) A channel giving access to a larger body of water,
(b) A narrow indentation in the coast, the shore of a lake, or the bank of a river, tapering towards its head.

Intervale: A low-lying, seasonally flooded grassy area adjacent to a watercourse.

Island: A body of land surrounded by water.

Islet: A small island.

Isthmus: A neck of land with water on both sides, connecting two larger areas of land.

Lac, Lake: A landlocked body of water.

Landing: A coastal or shore location where boats may put in to load or unload.

Ledge: A formation of rock extending from the shore, close to the water surface.

Loch: A landlocked body of water.

Lochan: Body of landlocked water, smaller than a lake.

Lookoff, Lookout: A hill, or an elevated place on a hill or mountain, suitable for viewing the surrounding countryside.

Marais, Marsh: A flat, wet area with low vegetation of grasses and reeds, subject to frequent flooding.

Meadow, Meadows: A low-lying area with low vegetation.

Millpond: A body of standing water formed artificially by the construction of a dam to control water flow at mill sites.

Millstream: A small watercourse where there is, or was, a mill located.

Mont, Montagne, Mount, Mountain: A large mass of land rising above the surrounding terrain.

Narrows: A constricted part of a channel, stream, or strait.

National Historic Park: A legally defined area, under federal jurisdiction, for the preservation of a historic site.

National Park: A legally defined area, under federal jurisdiction, for camping, outdoor recreation, and preservation of wildlife.

Neck: A long, narrow promontory extending into a body of water.

Nez, Nose: A promontory extending into the sea.

Nubble: A small island or rock which just barely clears the surface of the water.

Outlet: A watercourse draining from a lake.

Pass: A saltwater channel between two bodies of land.

Passage, Passe:	A navigable channel between two bodies of land, connecting two large bodies of water.
Patch:	An undersea feature elevated from the surrounding sea bottom, usually of small dimensions.
Peak:	(a) The uppermost part of a mountain or hill. (b) An undersea elevation.
Peninsula:	An elongated point of land extending into a body of water.
Pinnacle:	A steeply sloped hill with a pointed top.
Plain:	Grassland in a wet, low-lying area.
Point, Pointe:	A tapering piece of land jutting out from the coast, or forming a turning point in the coastline.
Pond:	A body of landlocked water, usually smaller than a lake.
Pool:	A section in a watercourse where the flow of water is not very fast, and is suitable for angling.
Port:	A water area, usually protected by natural or artificial features, suitable for mooring or anchoring vessels.
Portage:	A place at which carrying of boats and goods from one navigable water to another is necessary.
Pothole:	(a) A small landlocked body of water. (b) A small deadwater.
Pré:	A low-lying terrain with low vegetation.
Provincial Park:	A legally defined land area, under provincial jurisdiction, for camping, outdoor recreation, and preservation of wildlife.
Pughole:	(a) A small landlocked body of water. (b) A small deadwater.
Race:	A very strong current.
Range:	A group of hills or mountains.
Rapids:	A fast-flowing section of a watercourse, generally with exposed rocks or boulders.

Reef:	An undersea feature elevated from the sea bottom, usually close to the surface, constituting a danger to navigation.
Reservoir:	A natural or artifically formed body of water with a controlled level, often used for hydro-electric or urban water supply requirements.
Ridge:	A long, narrow stretch of elevated terrain.
Rip, Rips:	A section of fast, turbulent water.
River, Rivière:	A large watercourse.
Roads:	An area near the shore where vessels can anchor in safety.
Roche, Rock:	A solid mass of stone rising from the sea-bottom, close to or above the surface.
Ruisseau:	A small watercourse.
Run:	(a) A small, narrow and fast-flowing watercourse, (b) A narrow saltwater channel between two bodies of land.
Runoff:	A small watercourse draining standing water.
Savannah:	Grassland on soft, wet soil.
Seaside:	A stretch of land bordering the ocean.
Shoal:	An elevated undersea feature of unconsolidated material, where the shallowness of water constitutes a danger to surface navigation.
Shore:	A narrow strip of land bordering a body of water.
Slough:	Wet land with scrub growth and soft, muddy soil.
Sluice:	A shallow and constricted saltwater passage between two bodies of land.
Soi:	A basin-like water feature connected to the open sea.
Sound:	A narrow channel between a mainland an an island.
Spit:	A long, narrow projection of land extending into the sea, usually comprised of sand.

Spot:	A small shoal.
Stillwater:	A water feature, without perceptible movement, in a watercourse.
Strait:	A major, long, navigable channel between two bodies of land.
Stream:	A watercourse.
Sugarloaf:	A conical, elevated terrain feature.
Sunker:	A solid mass of stone rising from the sea bottom, close to or above the surface.
Swale:	Low-lying, wet, marshy ground.
Swamp:	A flat, wet area, often flooded.
Tête:	A high promontory with a steep face, extending into a body of water.
Thrum, Thrumcap:	A small rounded rock or island.
Tickle, Tittle:	Swiftly flowing saltwater in a small, narrow channel with rocks and reefs, which constitutes a danger to navigation.
Valley:	A wide and elongated depression between hills or mountains.
Vault:	An extremely steep-sided depression formed by the downcutting of hills by a watercourse.
Way:	The main navigable channel into a harbour.
Wharf:	A platform beside which a ship may be moored for loading and unloading.
Woods:	Large tracts of forested land.

PRINCIPLES OF NOMENCLATURE

The principles of nomenclature which guide the decisions of the Canadian Permanent Committee on Geographical Names are summarized as follows:

1. Names created by legislation are accepted by the Committee.

2. Postal authorities, railway companies and resource development companies are encouraged to seek the advice of the Committee concerning names connected with their operations.

3. First consideration is given to names with well-established public usage. Unless there are good reasons to the contrary, this principle should prevail.

4. Established names that have proved acceptable and satisfactory should not be changed or altered.

5. Names applying to various service facilities (e.g., post offices, stations) should conform with the names of the communities which they serve. Only a single name should be given for each feature.

6. Duplication of names to the extent that it may cause confusion should be avoided.

7. Approval of both an English and a French form of a name for the same feature may be sanctioned only where both have well-established usage.

8. The application of a personal name is not made unless it can be demonstrated that exceptional circumstances exist and it is in the public interest to do so.

9. Preferred sources for names are: descriptive names appropriate to the features; pioneers, war casualties and historical events connected with the area; names from native languages currently or formerly identified with the general area.

10. Indian and Eskimo names shall be recorded according to the best recognized orthography.

11. Names should be euphonious and in good taste.

12. Qualifying words such as *upper*, *new*, *west branch* , and *big* may be used in an area to distinguish between two or more features with identical names.

13. A generic should indicate the nature of the feature.

14. Foreign names shall conform to international regulations.

PROCEDURES CONCERNING THE SUBMISSION OF GEOGRAPHIC NAMES

PROPOSALS

Except in exceptional circumstances, the Committee itself does not initiate naming. Most new names approved by the Committee are submitted by the general public and by organizations. Such names should be for specific geographical features.

Individuals or organizations contemplating the publication of geographical names should submit proposals well in advance of publication dates. The consideration of new names may require considerable time, particularly when local investigation is required. The publication of unauthorized names will not necessarily result in official recognition.

Descriptive names and names relating to the history of an area are preferred. The following information accompanied by adequate documentation will facilitate prompt decisions:

(a) location latitude and longitude, specifying map consulted;
(b) identification on a map indicating precise extent;
(c) photographs or sketches;
(d) reason for proposals;
(e) origin;
(f) evidence that features are unnamed.

CHANGES

Reliable, preferably documented, information concerning corrections in the use, spelling or application of toponyms on maps and charts and in other publications is welcomed by the Committee.

INQUIRIES

Inquiries concerning geographic nomenclature in Canada, proposals concerning new names, or changes in the form, spelling or application of existing names, may be submitted in writing to: Executive Secretary, Geographical Names, 12th Floor, 580 Booth Street, Ottawa, Canada, K1A 0E4. Telephone 613-992-3405.

COMMITTEE MEMBERSHIP

The Canadian Permanent Committee on Geographical Names is composed of representatives from Federal Government Departments concerned with mapping, archives, translation, defence and territorial administration, and an appointed representative from each province of Canada.

FEDERAL MEMBERS

Drolet, J.-P.
Chairman, C.P.C.G.N. Assistant Deputy Minister,
Department of Energy, Mines and Resources, Ottawa.

Smith, W.I.
Dominion Archivist, Public Archives, Ottawa.

Larose, P.-E.
Superintendent, Bureau of Translation,
Department of the Secretary of State, Ottawa.

Moore, R.E.
Director-General, Surveys and Mapping Branch,
Department of Energy, Mines and Resources, Ottawa.

Stevenson, A.
Department of Indian Affairs and Northern Development,
Ottawa.

Preston, Col. John
Director of Cartography,
Department of National Defence, Ottawa.

Ewing, G.N.
Dominion Hydrographer, Marine Sciences Directorate,
Department of the Environment, Ottawa.

PROVINCIAL MEMBERS

Winsor, R.
Chairman, Newfoundland Geographic Names Board,
Department of Forestry and Agriculture, St. John's, Newfoundland.

Boylan, D.B.
Secretary to Cabinet, Executive Council Office,
Charlottetown, Prince Edward Island.

Robertson, H.B.
Director of Surveys, Department of Lands and Forests,
Halifax, Nova Scotia.

Sifton, T.E
Director of Lands, Department of Natural Resources,
Fredericton, New Brunswick.

Poirier, J.R.
Secretary, Quebec Geographical Commission,
Department of Lands and Forests,
Québec, Québec.

Code, R.G.
Surveyor General, Lands and Surveys Branch,
Ontario Ministry of Natural Resources,
Toronto, Ontario.

Roberts, A.C.
Director of Surveys,
Department of Renewable Resources and Transportation Services,
Winnipeg, Manitoba.

Schwartz, W.M.
Controller of Surveys, Department of Tourism and
Renewable Resources, Regina, Saskatchewan.

Edwards, W.B.
Chairman, Alberta Historic Sites Board,
Edmonton, Alberta.

Pearson, D.F.
Research Officer, Surveys and Mapping Branch,
Ministry of Environment,
Victoria, British Columbia.

AVANT-PROPOS

Cette édition du Répertoire géographique de la Nouvelle-Écosse contient plus du double des noms de l'édition précédente publiée en 1961. Y sont énumérés les noms des lieux habités, des rivières, des lacs et des autres détails naturels ou culturels approuvés par le Comité permanent canadien des noms géographiques.

Les nombreuses additions et modifications apportées au présent répertoire sont la somme de trois années complètes d'étude sur le terrain des noms utilisés dans toute la province.

La présentation de ce répertoire a été concue pour satisfaire aux besoins des utilisateurs anglophones et francophones. Les toponymes revêtent, dans le texte, la forme linguistique reconnue par le Comité.

Le Comité accueillera favorablement toute observation au sujet d'additions ou de modifications à apporter.

H.B. Robertson
Directeur des levés et membre du
Comité permanent canadien des
noms géographiques.

Halifax 1977

PRÉFACE

En 1897, la Commission de géographie du Canada, devenue par la suite la Commission canadienne des noms géographiques, était institutuée par décret du conseil et investie du pouvoir de statuer sur toutes les questions relatives à la nomenclature géographique du Canada. La Commission a été réorganisée en 1961 sous le nom de Comité permanent canadien des noms géographiques, sa composition et ses attributions actuelles étant définies par le décret du conseil C.P. 1969-1458. Les décisions du Comité permanent sont fondées sur un ensemble de principes de nomenclature que tous les membres se sont engagés à respecter.

Les décisions du Comité sont publiées dans la série des Répertoires géographiques du Canada. Le présent volume renferme tous les choix arrêtés dans le cas de la Nouvelle-Écosse. Cette révision de l'édition de 1961 du Répertoire géographique de la Nouvelle-Écosse contient environ 31 700 noms de lieux habités et de détails physiques dont presque la moitié constitue des additions ou des modifications apportées à l'édition précédente.

Le Comité accueille favorablement toute information valable qui lui est présentée au sujet d'additions ou de corrections à apporter aux toponymes. Une fois approuvés, ces renseignements sont publiés dans les suppléments cumulatifs annuels.

La collaboration des autorités fédérales et provinciales a été essentielle à l'accomplissement et la précision de ce travail. Le Comité tient à remercier de son aide le représentant de la Nouvelle-Écosse au sein du Comité, M. H.B. Robertson, Directeur des levés. Nous tenons également à souligner la contribution du personnel du ministère des Terres et Forêts et du ministère des Mines de la Nouvelle-Écosse, en particulier M. J.T. Porteous et Mlle E.E. Duncan.

Jean-Paul Drolet
Président
Comité permanent canadien
des noms géographiques.

Ottawa 1977

LIEUX HABITÉS

Il a été l'usage, dans les derniers volumes de la présente série, d'attribuer à chaque nom d'agglomération un terme descriptif, tel que hameau, agglomération rurale disséminée, bureau de poste, etc. Comme ces termes ont souvent été choisis de façon arbitraire, en fonction des caractéristiques représentées sur les cartes à grande échelle, et que le concept de lieux habités diffère d'une province à l'autre, le Comité a décidé de ne conserver des désignations que pour les municipalités constituées en corporation.

Le Comité a jugé bon d'écrire en lettres majuscules les noms d'agglomérations, afin de les identifier facilement et de les distinguer des noms d'autres entités. Lorsqu'une lettre d'un mot, autre que la première, prend habituellement une majuscule, comme dans LaHave et MacKinley, le nom s'écrit LaHAVE et MacKINLEY. Les autres noms tels que Maccan sont écrits entièrement en majuscules, par exemple MACCAN.

USAGE LINGUISTIQUE

Les renseignements contenus dans ce répertoire sont présentés de manière à pouvoir répondre en un seul volume aux besoins des utilisateurs francophones et anglophones.

Chaque nom est indiqué sous la forme linguistique approuvée par le Comité permanent canadien des noms géographiques. Cette forme correspond normalement à l'usage local le plus courant.

Le Répertoire comporte un glossaire des termes génériques. Les définitions y sont données en anglais et en francais, à l'instar de toutes les autres notes générales et explicatives.

Dans certains cas, lorsque le nom ne comporte pas de terme générique, ou lorsque le terme générique utilisé ne définit pas la nature du détail représenté, un terme descriptif explicatif est donné entre parenthèses, en anglais et en francais; par exemple: Carrying Place, The (Isthmus-Isthme); Cow and Calf, The (Rocks-Roches); Shields Head (Island-Île).

CLASSEMENT ALPHABÉTIQUE

LIEUX HABITÉS

Tous les composants d'un toponyme désignant un lieu habité constituent un nom propre unique, et c'est pourquoi l'on adopte un classement alphabétique pûr. Par exemple, GRAND DESERT précède GRANDE ANSE, lequel est suivi de GRANDIGUE. Les noms comportant un "ST" 'ou' 'STE", sont classés comme si le préfixe s'écrivait au long; ainsi ST. CROIX, STE. ANNE DU RUISSEAU et ST. ESPRIT se suivent dans le classement.

DÉTAILS CULTURELS ET PHYSIQUES

Les noms de la plupart des entités culturelles et physiques comprennent un spécifique (nom propre), par exemple *Oulton* dans Oulton Creek et *Grand Pré* dans Grand Pré National Historic Park, et un générique, par exemple, *Lake* dans Webber Lake et *National Park* dans Cape Breton Highlands National Park.

Ces noms complets sont classés lettre par lettre; ainsi *Petitpas Lake* précède Petit Passage, mais vient après Petit-de-Grat Island. Il y a toutefois des exceptions:

a) lorsque le générique précède le nom propre, comme dans *Mount King*, on l'inscrit dans le Répertoire sous la forme de *King, Mount*.

b) lorsque le nom commence par un article défini, comme dans The Moll, on inscrit *Moll, The*. Cette règle s'applique également aux noms dont la totalité des éléments est approuvée en francais comme dans *La Pointe;* cependant, lorsque le nom retenu se compose d'un spécifique d'origine française tel que *La Plache* et d'un générique anglais comme *River*, il se classe comme s'il ne formait qu'un seul mot.

c) lorsqu'un toponyme comporte une particule francaise telle que "à" et "de", celle-ci se place avec le terme générique; c'est-à-dire *Pic, Lac à*, et, *Bardeaux, Lac des*.

Dans les noms anglais, la place de l'adjectif indique rarement si celui-ci qualifie le nom propre ou le terme générique. Les adjectifs *Little* et *Big* dans des noms tels que *Little Pine Lake* et *Big Lots Hills* sont donc considérés, aux fins du classement alphabétique, comme partie intégrante du nom propre. Cependant, dans un nom francais, l'adjectif est placé de facon à indiquer s'il modifie le spécifique ou le terme générique. Dans le nom *Petit Lac Long*, l'adjectif *Petit* qualifie le terme générique *Lac;* le nom est donc classé sous la lettre *"L"* à *Long, Petit Lac*. Dans le nom *Crique des Grosses Coques*, l'adjectif *Grosses* qualifie *Coques;* le nom est donc classé sous la lettre *"G "* à *Grosses Coques, Crique des*.

Les noms identiques sont classés suivant l'ordre croissant des latitudes.

RÉGION CARTOGRAPHIQUE

Cette colonne a pour but d'aider l'utilisateur appelé à se servir d'une carte. Elle renvoie à une carte du Système national de référence topographique à 1/50 000, la plus grande échelle à laquelle l'ensemble de la province soit représenté. En se reportant à la carte placée à l'intérieur de la couverture arrière du Répertoire, l'utilisateur peut déterminer rapidement dans quelle partie de la Nouvelle-Écosse se trouve un détail donné. Si certains détails chevauchent plusieurs cartes, cela est indiqué. En outre, certains des détails les mieux connus et les plus étendus, qui sont nommés sur la carte de référence, portent dans le texte la mention "See Key Map – Voir Carte de Référence".

On remarquera que certains des noms de ce Répertoire ne figurent pas sur la carte de référence à 1/50 000, en raison de la date d'approbation des noms et de la date de publication des cartes.

On peut se procurer gratuitement des index de cartes à diverses échelles en s'adressant au:

Bureau des cartes du Canada,
Direction des levés et de la cartographie,
Ministère de l'Énergie, des Mines et des Ressources,
615, rue Booth,
Ottawa, Canada
K1A 0E9

RÉFÉRENCES DE LOCALISATION GÉNÉRALE

Les lieux sont situés par rapport aux comtés géographiques indiqués sur la carte de référence à la fin du Répertoire. Les détails situés au large des côtes, tels que les roches, les bancs, les récifs, les anses, les baies, qui ne peuvent être inclus à l'intérieur de ces divisions territoriales, sont rattachés, pour plus de commodité, au comté adjacent. Le comté n'est pas indiqué dans le cas de certains détails importants qui figurent sur la carte de référence.

L'extension des limites de certaines municipalités a entraîné l'assimilation de collectivités constituées en corporation et d'autres qui ne le sont pas. Le nom de ces collectivités a été conservé en raison du maintien de l'usage local. Ces lieux sont situés par rapport à la municipalité dont ils font partie, plutôt qu'au comté géographique. Ainsi, McLEODS CROSSING porte la mention "Within the town of – dans la ville de GLACE BAY". Les détails naturels qui se situent entièrement à l'intérieur de municipalités urbaines sont également localisés de cette facon.

RÉFÉRENCES PAR COORDONNÉES GÉOGRAPHIQUES

Les coordonnées géographiques indiquent le centre de chaque détail, sauf pour les cours d'eau dont on donne la position de l'embouchure. Les coordonnées géographiques sont données à la minute près.

CHANGEMENTS DE NOM

Les noms qui figuraient dans la première édition de ce répertoire et ont été modifiés sont accompagnés de la note "See – Voir" renvoyant au nom approuvé.

ANNULATIONS

L'emploi d'un astérisque (*) indique que le Comité a annulé un nom qu'il avait approuvé. Il s'agit souvent de lieux abandonnés dont le nom n'est plus usité. A l'occasion, il peut correspondre à un élément auparavant incorrectement nommé. Certains de ces noms abandonnés peuvent cependant figurer encore sur les cartes géographiques.

ABRÉVIATIONS

B. de p.	Bureau de poste
B.F.C.	Base des Forces canadiennes
Agglom.	Agglomération
C.P.C.N.G.	Comité permanent canadien des noms géographiques
Dist.	District
Mun.	Municipal

GLOSSAIRE DES TERMES GÉNÉRIQUES

Les termes génériques suivants sont utilisés dans le présent répertoire pour désigner des détails culturels et naturels. Chaque terme générique est défini en fonction des concepts locaux. Dans certains cas, un synonyme est inscrit entre parenthèses dans le texte lorsque le concept local est très différent de l'usage plus généralement accepté au Canada.

Anchorage: Région protégée le long d'une côte ou d'un littoral, permettant le mouillage des bateaux en toute sécurité.

Anse: Petite échancrure le long d'un littoral ou d'une côte.

Arm: Étendue d'eau longue et étroite se prolongeant d'une autre nappe d'eau.

Bank: Élévation distincte du fond marin dont la profondeur ne constitue pas normalement un danger pour la navigation de surface.

Bar, Barre: Masse de sable, de boue, de gravier ou de galets, longue et étroite, près de l'embouchure d'un cours d'eau ou à l'approche d'un port et formant obstacle à la navigation; masse analogue près de et parallèle au littoral.

Barachois: Étendue d'eau obstruée par une barrière de sable ne laissant qu'une entrée très étroite.

Barren, Barrens: Étendue de terrain passablement plate où peuvent pousser de petits arbres ou des arbustes.

Basin: Nape d'eau joignant une nappe plus grande, par une embouchure étroite.

Batture: Avant-plage de roche ou de schiste sur laquelle viennent se briser les vagues.

Bay: Échancrure d'une côte ou d'un rivage.

Beach: Littoral en pente douce, balayé par les vagues, recouvert de sable, de galets ou de boue.

Bend: Changement de direction d'un cours d'eau ou d'un littoral.

Bight: Étendue d'eau dans une longue courbe ou échancrure du littoral.

Black Rattle: Petit cours d'eau, peu profond et rapide.

Bluff: Colline ou promontoire comportant une ou plusieurs faces escarpées.

Bog: Zone de terrain plat et spongieux, formé de végétation courte.

Bosse: Zone submergée formée de matériaux non consolidés, où la peu de profondeur de l'eau constitue un danger pour la navigation de surface.

Branch: Cours d'eau tributaire d'un cours d'eau principal.

Breaker: Avant-plage de roche ou de schiste sur laquelle viennent se briser les vagues.

Brook: Cours d'eau dont l'importance varie du filet d'eau saisonnier à la rivière.

Canadian Forces Base: Zone délimitée réservée à l'usage des Forces armées canadiennes.

Canal:
(a) Chenal d'eau douce naturel ou artificiel utilisé pour la navigation, l'irrigation, etc.,
(b) Passage étroit d'eau salée entre deux étendues de terre.

Cap: Amas de petits rochers, Îles, bancs ou corniches côtiers entouré d'eau et au sommet arrondi.

Cap, Cape: Grand promontoire en avancée dans la mer.

Cascade: Série de petites chutes raides.

Cave: Espace creux, cavité ou salle à l'intérieur de la terre.

Channel: Nappe d'eau étroite ordinairement navigable, réunissant des nappes d'eau plus grandes.

Chuckle: Groupe de roches à l'embouchure d'une petite baie où les courants de marée se heurtent à des obstacles en créant des tourbillons.

Cliff: Escarpement presque vertical au-dessus de l'eau ou des terres environnantes; une falaise.

Comté, County: Division territoriale dont les limites sont établies par la loi.

Côte:	Bande étroite de terre en bordure de l'eau.
Cove:	Petite baie ou échancrure le long d'une côte ou d'un littoral; une anse.
Creek:	(a) Embouchure côtière au niveau de la mer. (b) Cours d'eau descendant avec embouchure au niveau de la mer ou au-dessus.
Crique:	Embouchure côtière au niveau de la mer.
Deadwater:	Extension d'un cours d'eau où l'eau semble immobile.
Desert:	Région boisée au sol sablonneux.
Droke:	Petit cours d'eau saumâtre.
Dump:	Petite chute et le bassin formé à sa base.
Dyke:	Fossé creusé pour évacuer le surplus d'eau des terres agricoles.
Dune:	Petite chaîne de collines de sable le long du rivage.
Eddy:	Petit tourbillon d'eau au mouvement circulaire, contraire au sense du courant ou de la marée, et causé par des obstacles tels que rochers, îles ou affleurements.
Elbow:	Changement brusque de direction d'un cours d'eau.
End:	Extrémité d'une île.
Entrance:	Chenal navigable, habituellement dans un port.
Estuary:	Zone de marée à l'embouchure d'un cours d'eau.
Étang:	Petite étendue d'eau à l'intérieur des terres.
Falaise:	Escarpement presque vertical au-dessus d'une étendue d'eau ou des terres environnantes.
Falls:	Endroit où un cours d'eau tombe le long d'une pente.
Field:	Zone de prairie.

Flat, Flats:	(a) Zones littorales planes, généralement formées de boue et inondées à marée haute, (b) Marécage bas inondé à marée haute, (c) Vaste étendue de terrain plat et humide.
Flowage:	Zone inondée, généralement à cause d'un barrage.
Flume:	Section d'un cours d'eau étroite et au débit rapide.
Fork, Forks:	Jonction de deux cours d'eau.
Funnel:	Étranglement d'un cours d'eau caractérisé par un débit rapide.
Game Sanctuary:	Zone délimitée, relevant de la compétence provinciale, et consacrée à la protection de la faune.
Gap:	Passage d'eau salée étroit entre deux étendues de terre.
Glade:	Zone basse et humide qui possède une végétation clairsemée.
Glen:	Vallée étroite dans une région montagneuse.
Goulet:	Nappe d'eau dormante, souvent un port en eau salée, possédant une entrée étroite.
Ground, Grounds:	Entité sous-marine peu profonde, habituellement située près ou dans un port, dangereux pour la navigation.
Gulch:	(a) Dépression abrupte dans le paysage, (b) Chenal d'eau salée peu profond.
Gulf:	Avancée de la mer dans la terre, plus grande qu'une baie.
Gully:	(a) Dépression ravinée par l'eau dans le relief, (b) Petit cours d'eau, (c) Petite anse à l'embouchure d'un petit cours d'eau.
Gut, Gutter:	(a) Étendue d'eau dormante réunie à la mer par une étroite échancrure, (b) Chenal étroit entre deux étendue de terre qui entrave le mouvement de la marée ou d'un courant.
Guzzle:	(a) Chenal d'eau salée peu profond et très étroit entre deux étendues de terre. (b) Section d'un cours d'eau étroite et peu profonde.

Harbour, Havre:	Étendue d'eau calme, généralement protégée par des éléments naturels ou artificiels, permettant l'amarrage ou le mouillage des bateaux.
Hay Marsh, Hay Meadow:	Zones basses et humides de prairie qui se prêtent à la culture du fourrage.
Head:	Haut promontoire abrupt qui s'avance dans l'eau.
Heath:	Zone plate et humide à végétation pauvre.
Highlands:	Vastes zones de terrain montagneux et élévés.
Hill:	(a) Pente escarpée, (b) Élévation de terrain au-dessus du niveau des terrains environnants, et plus petite qu'une montagne.
Hole:	(a) Petite napppe d'eau stagnante à l'intérieur des terres, (b) Petite zone d'eau dormante dans un cours d'eau, (c) Petite zone du fond marin moins profonde que la zone environnante, (d) Chenal très étroit, (e) Très petite baie le long de la côte.
Hollow:	Large dépression de terrain ayant habituellement un cours d'eau à sa base.
Île, Isle:	Étendue de terre entourée d'eau.
Indian Reserve:	Étendue de terrain, délimitée par la loi, réservée à l'usage et au bénéfice d'une tribu d'Indiens.
Inlet:	(a) Chenal donnant accès à une plus grande étendue d'eau, (b) Échancrure étroite dans la côte, le rivage d'un lac ou d'une rivière, qui se rétrécit vers l'intérieur des terres.
Intervale:	Terrain bas verdoyant, aux inondations saisonnières, adjacent à un cours d'eau.
Island:	Étendue de terre complètement entourée d'eau.
Islet:	Petite île.
Isthmus:	Langue de terre resserrée entre deux étendues d'eau et réunissant deux terres plus grandes.
Lac, Lake:	Nappe d'eau à l'intérieur des terres.

Landing:	Endroit de la côte ou du littoral où les bateaux peuvent être chargés ou déchargés.
Ledge:	Bordure de roche submergée le long d'une côte.
Loch:	Nappe d'eau à l'intérieur des terres.
Lochan:	Nappe d'eau enserrée entre les terres, plus petite qu'un lac.
Lookoff, Lookout:	Lieu élevé sur une colline ou une montagne, à vue panoramique.
Marais, Marsh:	Région plate et humide caractérisée par une végétation d'herbes et de roseaux et sujette à des inondation fréquentes.
Meadow, Meadows:	Terrain plat à végétation courte.
Millpond:	Nappe d'eau dormante formée artificiellement par la construction d'un barrage destiné à contrôler le débit d'eau sur les chantiers d'usines.
Millstream:	Petit cours d'eau sur lequel est ou était installé un moulin.
Mont, Montagne, Mount, Mountain:	Importante élévation de terrain.
Narrows:	Partie étroite d'un chenal, d'un cours d'eau ou d'un détroit.
National Historic Park:	Région délimitée par la loi, relevant de la compétence fédérale, consacrée à la préservation d'un lieu historique.
National Park:	Région délimitée par la loi, relevant de la compétence fédérale et consacrée au camping, aux loisirs en plein air et à la conservation de la faune.
Neck:	Promontoire long et étroit qui s'avance dans une étendue d'eau.
Nez, Nose:	Promontoire qui s'avance dans la mer.
Nubble:	Petite île ou rocher qui dépasse à peine la surface de l'eau.
Outlet:	Cours d'eau drainant un lac.
Pass:	Chenal d'eau salée entre deux étendues de terre.
Passage, Passe:	Chenal navigable entre deux étendues de terre et réunissant deux grandes nappes d'eau.

Patch:	Élévation de terrain sous-marine, généralement de petites dimensions.
Peak:	(a) Partie supérieure d'une montagne ou d'une colline, (b) Élévation sous-marine.
Peninsula:	Pointe de terre alongée s'avancant dans une nappe d'eau.
Pinnacle:	Colline aux versants abrupts et au sommet pointu.
Plain:	Prairie qui se trouve dans une région basse et humide.
Point, Pointe:	Avancée de terre effilée en mer, ou qui marque un changement d'orientation de la côte.
Pond:	Nappe d'eau à l'intérieur des terres, généralement plus petite qu'un lac; un étang.
Pool:	Partie d'un cours d'eau qui, par son débit peu rapide, convient à la pêche.
Port:	Étendue d'eau, habituellement protégée par des éléments naturels ou artificiels, permettant l'amarrage ou le mouillage des bateaux.
Portage:	Endroit où il est nécessaire de porter les bateaux et les marchandises d'une voie navigable à une autre.
Pothole:	(a) Petite étendue d'eau à l'intérieur des terres, (b) Petite nappe d'eau dormante.
Pré:	Terrain bas à végétation courte.
Provincial Park:	Étendue de terre définie par la loi, relevant de la compétence provinciale et consacrée au camping, aux loisirs en plein air et à la conservation de la faune.
Pughole:	(a) Petite étendue d'eau à l'intérieur des terres, (b) Petite nappe d'eau dormante.
Race:	Courant très fort.
Range:	Groupe de collines ou de montagnes.
Rapids:	Partie d'un cours d'eau au courant rapide généralement avec affleurements de roches ou de blocs rocheux.

Reef:	Élévation du fond marin qui se situe habituellement près de la surface de l'eau et constitue un danger pour la navigation.
Reservoir:	Nappe d'eau naturelle ou artificielle dont le niveau est contrôlé, et qui souvent sert à la production d'énergie hydro-électrique et à l'alimentation des villes en eau.
Ridge:	Élévation de terrain longue et étroite.
Rip, Rips:	Section d'un cours d'eau au courant rapide et tumultueux.
River, Rivière:	Cours d'eau important.
Roads:	Zone près du littoral où les bateaux peuvent mouiller en toute sécurité.
Roche, Rock:	Masse solide de pierre s'élevant du fond marin à proximité ou au-dessus de la surface de l'eau.
Ruisseau:	Petit cours d'eau.
Run:	(a) Petit cours d'eau étroit et rapide, (b) Chenal d'eau salée étroit entre deux étendues de terre.
Runoff:	Petit cours d'eau drainant des eaux dormantes.
Savannah:	Prairie qui repose sur un sol humide et meuble.
Seaside:	Bande de terre en bordure de l'océan.
Shoal:	Entité sous-marine élevée composée de matériaux non consolidés, dont la peu de profondeur constitue un danger pour la navigation de surface.
Shore:	Bande de terre étroite en bordure d'une nappe d'eau.
Slough:	Terrain humide formé d'un sol meuble et boueux où poussent des broussailles.
Sluice:	Passage peu profond et resserré d'eau salée entre deux étendues de terre.
Soi:	Nappe d'eau comparable à un bassin et reliée à la pleine mer.
Sound:	Chenal étroit entre la terre ferme et une île.

Spit:	Langue de terre longue et étroite s'avancant dans la mer, et composée habituellement de sable.
Spot:	Petit haut-fond.
Stillwater:	Section d'un cours d'eau au mouvement imperceptible.
Strait:	Long chenal navigable important entre deux étendues de terre.
Stream:	Un cours d'eau.
Sugarloaf:	Élévation du terrain de forme conique.
Sunker:	Masse solide de pierre à fleur d'eau.
Swale:	Terrain bas, humide et marécageux.
Swamp:	Zone plate, humide, souvent inondée.
Tête:	Haut promontoire abrupt qui s'avance dans l'eau.
Thrum, Thrumcap:	Petit rocher ou île de forme arrondie.
Tickle, Tittle:	Courant rapide d'eau salée dans un petit chenal étroit où des roches et des récifs constituent un danger pour la navigation.
Valley:	Dépression de terrain longue et large entre des collines ou des montagnes.
Vault:	Dépression dont les parois sont très escarpées et qui a été formée par l'érosion des collines par un cours d'eau.
Way:	Chenal navigable principal dans un port.
Wharf:	Plate-forme où l'on peut amarrer un bateau pour le charger ou le décharger.
Woods:	Vastes étendues de terrain boisé.

PRINCIPES DE NOMENCLATURE

Résumé des principes de nomenclature qui orientent les décisions du Comité permanent canadien des noms géographiques:

1. Le Comité accepte les noms créés par une loi.

2. Le Comité engage les sociétés de chemin de fer, les responsables des postes et les sociétés qui exploitent les ressources naturelles à le consulter au sujet des noms reliés à leurs activités.

3. Les noms consacrés par l'usage ont la priorité. Ce principe doit prévaloir à moins que le contraire ne soit pleinement justifié.

4. Les noms dont l'usage a révélé qu'ils étaient acceptables et satisfaisants, ne doivent être ni changés ni modifiés.

5. Les noms des diverses installations de service (par ex.: les bureaux de poste, les gares) doivent s'accorder avec ceux des collectivités qu'ils desservent. On doit n'attribuer qu'un seul nom à chaque détail.

6. Le double emploi d'un nom doit être évité lorsque ce nom peut prêter à confusion.

7. Les désignations anglaise et francaise d'un nom désignant un même détail ne seront approuvées que lorsque l'usage aura manifestement accrédité les deux formes.

8. L'emploi d'anthroponymes (noms de personnes) est interdit, à moins que l'on ne fasse état de circonstances exceptionnelles et qu'il n'y aille de l'intérêt public.

9. Les toponymes choisis devraient de préférence être des noms descriptifs propres aux détails considérés, des noms de pionniers, de blessés de guerre ou d'événements historiques qui ont un lien avec la région; ou encore des noms tirés des langues autochtones assimilés actuellement ou autrefois avec la région environnante.

10. Les noms indiens et esquimaux doivent être enregistrés selon la meilleure orthographe reconnue.

11. Les noms doivent être euphoniques et de bon goût.

12. Des qualificatifs tels que *upper, new, west branch* et *big* peuvent être utilisés dans une région pour faire distinguer entre deux ou plusieurs détails répondant au même nom.

13. Un terme générique doit indiquer la nature du détail qu'il sert à désigner.

14. Les noms étrangers doivent être conformes aux règlements internatinaux.

DIRECTIVES POUR LA SOUMISSION DE NOMS GÉOGRAPHIQUES

PROPOSITIONS

À moins de circonstances exceptionnelles, le Comité n'amorce pas lui-même le mécanisme de désignation des lieux. Les nouveaux noms approuvés par le Comité sont pour la plupart proposés par un particulier ou un organisme. Ces noms doivent s'appliquer à des détails géographiques précis.

Les particuliers ou les organismes qui voudraient que soient publiés des noms géographiques doivent présenter leurs propositions longtemps à l'avance. L'examen des nouveaux noms peut demander du temps, surtout s'il faut procéder à des enquêtes sur place. La publication de noms non autorisés n'entraînera pas nécessairement la reconnaissance officielle de ces noms.

Il faut proposer de préférence des noms descriptifs ou des noms qui évoquent une page de l'histoire de la région. Il est souhaitable de soumettre au Comité les renseignements suivants et la documentation pertinente; les décisions n'en seront que plus rapides.

a) La latitude et la longitude du lieu considéré, en indiquant la carte consultée.
b) L'identification du détail sur une carte en indiquant son étendue exacte;
c) Des photographies ou des croquis;
d) Les raisons motivant la proposition;
e) L'origine;
f) La preuve que le détail considéré ne porte pas de nom.

MODIFICATIONS

Le Comité accueille favorablement tout renseignement sûr, et de préférence documenté, relatif aux corrections à apporter à l'utilisation, à l'ortographe ou à l'application de toponymes sur les cartes géographiques et dans d'autre publications.

DEMANDES DE RENSEIGNEMENTS

Les demandes de renseignements concernant la toponymie du Canada, les propositions de nouveaux noms ou les modifications apportées à la forme, l'orthographe ou l'application de noms existants, doivent être soumises par écrit au: Secrétaire exécutif, Noms géographiques, 12^{e} étage, 580, rue Booth, Ottawa, Canada K1A 0E4 Téléphone: (613) 992-3405

COMPOSITION DU COMITÉ

Le Comité permanent canadien des noms géographiques est composé de représentants des ministères fédéraux, en poste dans les domaines de la cartographie, des archives, de la traduction, de la défense et de l'administration territoriale, et d'un représentant nommé de chaque province du Canada.

REPRÉSENTANTS DU FÉDÉRAL

Drolet, J.-P.
Président du C.P.C.N.G., sous-ministre adjoint,
ministère de l'Énergie, des Mines et des Ressources, Ottawa.

Smith, W.I.
Archiviste fédéral, Archives publiques, Ottawa.

Larose, P.-É.
Surintendant, Bureau des traductions,
Secrétariat d'État, Ottawa.

Moore, R.E.
Directeur général, Direction des levés et de la
cartographie, ministère de l'Énergie,
des Mines et des Ressources, Ottawa.

Stevenson, A.
ministère des Affaires indiennes et du Nord, Ottawa.

Col. Preston, John
Directeur du Service de la cartographie,
ministère de la Défense nationale, Ottawa.

Ewing, G.N.
Hydrographe fédéral,
Direction générale des sciences de la mer,
ministère de l'Environnement, Ottawa.

REPRÉSENTANTS DES PROVINCES

Winsor, R.
Président de la Commision des noms géographiques de Terre-Neuve,
ministère des Forêts et de l'Agriculture,
Saint-Jean (Terre-Neuve)

Boylan, D.B.
Secrétaire du Cabinet, Bureau du Conseil exécutif,
Charlottetown (Île-du-Prince-Édouard)

Robertson, H.B.
Directeur des levés, ministère des Terres et Forêts,
Halifax (Nouvelle-Écosse)

Sifton, T.E.
Directeur des Terres, ministère des Ressources naturelles,
Fredericton (Nouveau-Brunswick)

Poirier, J.R.
Secrétaire, Commission de géographie du Québec,
ministère des Terres et Forêts,
Québec (Québec)

Code, R.G.
Arpenteur général, Direction des levés et de la cartographie,
ministère des ressources naturelles de l'Ontario,
Toronto (Ontario)

Roberts, A.C.
Directeur des levés,
ministère des Ressources renouvelables et des Services du transport,
Winnipeg (Manitoba)

Schwartz, W.M.
Contrôleur des levés, ministère du Tourisme et des Ressources renouvelables,
Régina (Saskatchewan)

Edwards, W.B.
Président, Commission des lieux historiques de l'Alberta,
Edmonton (Alberta)

Pearson, D.F.
Chargé de recherches, Direction des levés et de la cartographie,
ministère de l'Environnement,
Victoria (Colombie-Britannique)

NOVA SCOTIA

Names listed in the Gazetteer of NOVA SCOTIA are normally found on maps of the National Topographic Series, scale 1:50,000. The index to these maps is shown at right. Maps are available from map dealers, or by mail order from:

Canada Map Office,
Surveys and Mapping Branch,
Energy, Mines and Resources,
615 Booth Street,
Ottawa, Ontario.
K1A 0E9

The price of each map is $1.50, plus 50¢ per order to cover mailing and handling. Orders should quote the identification number shown in the upper left-hand corner of each map outlined in the index. Prepayment by cheque or money order, payable to the Receiver General for Canada, is required. Allow approximately three weeks for delivery. Prices are subject to change without notice.

Indexes to other Canadian topographical maps are available free of charge.

NOUVELLE-ÉCOSSE

Les noms indiqués dans le Répertoire géographique de la NOUVELLE-ÉCOSSE se trouvent normalement sur les cartes du système national de référence cartographique au 1:50 000. L'index de ces cartes est à droite. Les cartes peuvent être obtenues chez les vendeurs de cartes ou en écrivant au:

Bureau des cartes du Canada,
Direction des levés et de la cartographie,
Énergie, Mines et Ressources,
615, rue Booth,
Ottawa, Ontario.
K1A 0E9

Chaque carte coûte $1.50 plus 50 cents par commande pour les frais de manutention. L'indicatif dans le coin supérieur gauche de chaque carte de l'index doit être inscrit sur la commande. Les commandes doivent être accompagnées d'un chèque ou mandat poste à l'ordre du Receveur général du Canada. Le délai de livraison est de trois semaines et les prix peuvent être changés sans préavis.

On peut également se procurer gratuitement des index des autres cartes topographiques du Canada.
